SUB SEA ADVENTURE

UNDERWATER VIEWING VESSEL

Come for a ride on the Yellow Submarine to view the beautiful coral and tropical fish life.

Our specially designed semi-submersible vessel gives you the very best viewing of Fiji's underwater world because you are looking side on at the coral reefs and fish life unlike in a glass-bottom boat where you are looking down from above.

We explore the Mana channel and the outer edge of the reef where the fish are in abundance (especially when it's feeding time!). Our crew provide a commentary pointing out the marine life you'll see and there are identification charts onboard.

All aboard for a journey to the bottom of the sea (well almost!)

DEPARTS DAILY at 11am

Trip is approximately 45 minutes. Extra departures may be added at busy times – check at Awesome Adventures bure

Our experienced crew will give you an informative pre-flight safety briefing whilst gearing you up for your parasail.

Don't miss this fantastic adrenalin pumping experience to see the stunning Fiji Islands from a birds eye view.
